Subject: PIO conference call recap_contact list attached.
[Multi state PIO call contacts and websites.xlsx](#)

Good afternoon all,

1) Due to the low participation on the call today, we are calling it the final multi-state call regarding the Gold King Mine Response. If media interest increases or new issue arise . . .the call can be reinstituted.

2) I have attached a contact list for the key agencies in the 4 states. If you scroll to the right on the attached spreadsheet, you will see the websites that are housing response information. Very helpful

3) Utah brief from the call today: A Utah agency joint press release is in development, expected today or Friday. It is a recap of state agency involvement. Media interest is quieting down. Mostly local media looking for updates. Their website <http://www.deq.utah.gov/Topics/Water/goldkingmine/index.htm> is a great source of information include fact sheets about the metals (arsenic, lead, manganese and aluminum.

4) Arizona brief from the call today: Arizona Environmental Quality putting out a news release (Friday) to address the sampling process, perspective of the impact ,etc. Website is <https://ein.az.gov/gold-king-mine-spill-response>

Thanks everyone for your support in the joint information system.

Judy

Respectfully,

Judy Kioski, Public Information Officer
